

Dear Parent/Carer,

As we approach the final week of this half term, we're gearing up for an exciting and impactful few days at Scalby Academy. Our focus is on achieving **100% attendance** for every child this week, and we've lined up a fantastic array of activities and rewards to motivate and celebrate our students.

Rewards & Incentives

- **Spooktacular Quiz** Always a student favourite! Those with **95% attendance** and **no C4s or C5s** this half term will be invited to experience the spooky surprises Mr Dunn has in store.
- **The Great Gift-Card Giveaway** Students with **100% attendance next week** will be entered into a prize draw to win a **£30 Just Eat voucher**—perfect for a Saturday night treat! Plus, there are **Greggs vouchers** up for grabs too.
- **Attendance Streak Cards** Students who've maintained **100% attendance for five consecutive weeks** can claim a treat from the **Big Box**.

Here's just a tiny taster of the important and interesting curriculum work going on next week...

All students:

In PE, students will compete in House events: **House Tennis** for boys and **House Basketball** for girls. Which house will come out on top?

Year 11 – It's all to play for in Year 11. Every second counts! In English, students will be fine-tuning their craft as story writers, ready for the November trial exams. In History, students will be continuing to study their new Medicine unit. Business students will be doing some vital preparation for their final exam in January.

Year 10 – Students have made a great start to their GCSE study. Next week, students will continue with vital GCSE content in all subjects. In English, students will be starting 'A Christmas Carol' ready for the festive term! In Business, students will be working hard towards those important coursework deadlines.

Year 9 – In Maths, students will be grappling with the complexities of algebra – a vital, yet tricky topic. The foundations of the study of algebra are laid in Year 9 and then built on for GCSE study. In Science, students will be getting involved in National Recycling Week.

Year 8 – In Science, students will be learning about electrical circuits, chemical formulas and atomic structures. In English, students will be connecting with their Boxer demonstrate to develop their analytical skills ready for the common assessments in the autumn term.

Year 7 – In English, students will be connecting their learning with their Nicky demonstrate task – an important step in preparing for the common assessments. In Science, students will be using chromatography to separate mixture and discovering the wonders of the human skeleton.

These are just some of the amazing things on offer at Scalby Academy next week.

Please do support your child to attend school every day next week.

Let's see how many we can add to the 100% Club!
